LGBT2 Supervision Tips

The LGBT2 Supervision Tips document was created by the Consortium's LGBT2 Constituency Committee to support LGBT2s and their supervisors in initiating, developing, and maintaining productive supervisory relationships. These tips were formed using information generated by the LGBT2 Supervision Tips Survey released in summer 2014. LGBT2s and their supervisors can use this document as a guide for conversations or as a reference tool in ways that best fit the unique supervisory relationship between these practitioners.

Join the members of the Consortium in the discussion! For more information about these tips, please connect with the LGBT2 Constituency Committee (LGBT2CC) by emailing lgbt2@lgbtcampus.org!
