FOR IMMEDIATE RELEASE

8/5/2015

“Everyone deserves to receive an education free from harassment, discrimination and violence. Yet these problems commonly plague transgender students pursuing a university degree, sometimes even before they set foot on campus,” therefore the Consortium of Higher Education LGBT Resource Professionals, in collaboration with Lambda Legal, announces the publication of the ***Transgender Rights Toolkit: A Legal Guide for Trans People and Their Advocates*** available at:

https://lgbtcampus.memberclicks.net/assets/2015_trans_college_students.pdf

This document provides answers to common questions about trans students, includes information on how the federal government protects trans students, and best practices for supporting trans students on college and university campuses.

Shared Vision and Mission Statement of the Consortium of Higher Education LGBT Resource Professionals
To critically transform higher education environments so that lesbian, gay, bisexual, and transgender students, faculty, administrators, staff, and alumni have equity in every respect.
